## OFFENSIVE/HAZARDOUS SUBSTANCES INFORMATION FORM

**PROPERTY:** .....

**APPLICANT:** .....

The following information is to be submitted to Council accompanying applications for development incorporating the storage or use of offensive and/or hazardous substances:

1. List all hazardous substances involved in the proposed development, including raw materials, intermediates and products. Hazardous substances are substances which are classified by the Dangerous Goods Code (*Australian Code for the Transport of Dangerous Goods by Road and Rail*), Fifth Edition, September 1992.
2. List quantities of hazardous substances involved in the proposed development.
3. If a developing site which is currently used for the storage or processing of hazardous substances, list and quantify all existing hazardous substances.
4. List the types of activities the hazardous substances are involved in, storage, processing, etc.
5. Detail the distance from the boundary for each hazardous substance.
6. Detail the annual number of deliveries of hazardous substances to and from the site.
7. Provide a site layout plan showing proposed development and any existing development on site.
8. Are any dangerous goods licences required? If so, for which substances.
9. Are any Environment Protection Authority licences required? If so, list required licences.
