

# City of Ryde

## Graffiti Blaster Program Permission Form for Removal From Private Property

I/we, \_\_\_\_\_ being the owner/s

of \_\_\_\_\_

request the City of Ryde to remove the graffiti from the \_\_\_\_\_.

We understand that this work is to be carried out at the City's cost for the duration of the Graffiti Blaster Programme, and due care will be exercised by the City in the removal of the graffiti.

We understand that there is some risk of damage to the surface in the removal of the graffiti, and having read the procedure for removal on the back of this sheet, absolve the City of Ryde of responsibility for such damage.

### **Privacy Notification**

In completing this form you will be prompted to supply information that is personal information for the purposes of the Privacy and Personal Information Act 1998. The supply of this information is voluntary. If you cannot provide, or do not wish to provide the information sought, the Council may be unable to process your request. Council is required under the Act to inform you about how your personal information is being collected and used. If you require further information please contact Council's Customer Service Centre on 9952-8222 and ask for an information sheet to be forwarded to you.

### **Telephone 9952 8222 for further information or to request graffiti removal**

This program was commenced with the assistance of a Grant from the NSW Attorney General's Department (Crime Prevention Division)

## Procedures for Graffiti Removal

1. The appropriate method of removal will be assessed after inspection of the surface type and the nature of the graffiti
2. A small test area will be treated first to determine if the process has adverse effects on the surface.
3. The usual method of removal will be

Unpainted brickwork or stone: Application of a graffiti remover solvent and wash with high pressure water

Painted brickwork: Trial as for unpainted surface with low pressure wash or paint over in closest available colour match

Concrete paving or blocks: Application of graffiti remover solvent and wash with high pressure water

Timber: Paint over in closest available colour match

Metal fencing: Application of graffiti remover solvent and immediate low pressure water wash.

General Metal surfaces: Application of graffiti remover solvent and wipe off. Water wash.

General Plastic surfaces: Application of graffiti remover solvent and wipe off. Water wash.

Pretreated anti-graffiti surfaces: Application of graffiti remover solvent and low pressure water wash.

4. The use of the high pressure water equipment may cause minor abrasion to the surfaces of soft stonework or certain types of brick and blockwork.

The use of graffiti remover solvents may cause loss of colour and paint peeling to painted or colourbond surfaces

5. The extent of surfaces to be painted over will generally be limited to the area of the graffiti, and will not extend to the total surface of the structure / wall.
