## Integrated Transport Strategy 2021

# Challenges

- strong future population growth
- strong growth in high density residential development
- high reliance on the private motor vehicle
- local area remains a significant 'attractor' of employment
- major arterial road 'spines' with significant pinch points
- expected worsening of Macquarie Park congestion

# Purpose of the new ITS

- maximise *person movement* capacity
- maximise public and active transport
- efficient modal integration
- promote integrated development
- secure key transport projects
- consistent parking policies / pricing

# Status and next steps

- review of existing ITS and plans
- consultation strategy
- internal / external engagement
- data analysis and investigation
- identify key infrastructure projects
- prepare new ITS for approval mid 2021
- funding advocacy
