## WELCOME TO RYDE!

As home to Sydney's second largest business district and world-class education services, Ryde is at the heart of innovation in Australia. Macquarie Park is one of Australia's biggest centres of business and innovation boasting a range of corporations including Microsoft, Optus, Foxtel and Sony, and leading in cutting-edge research in telecommunications, technology, pharmaceuticals and electronics. Macquarie University likewise is a leader in tertiary education with the Australian Hearing Hub, Macquarie University Hospital and Innovation Hub all contributing advanced research and development projects. Aside from innovation, Ryde also plays host to a number of great attractions with an abundance of beautiful national parks, heritage-listed architecture and cultural attractions known far and wide. Ryde has a rich history beginning as Sydney's largest municipality and later becoming the birthplace of the Granny Smith apple. Ryde has also produced a number of well-known personalities including The Wiggles, John Howard and Iggy Azalea. We look forward to showing you all Ryde has to offer!

## RYDE YOUTH COUNCIL

The Ryde Youth Council (RYC) is passionate about empowering young people with the skills to make a difference in the modern world. Since 2015, the RYC has worked diligently in reducing youth unemployment, improving life skills and advocating for alternative career pathways. In doing so, the RYC has built relationships with the Ryde Business Forum, commercial entities such as Top Ryde Shopping Centre and the Macquarie Centre, and various non-government organisations. The RYC has also drawn on past successes such as the 2014 Ryde Youth Empowerment Summit to continue to contribute to current issues including mental health, homelessness and alcohol-fuelled violence. We believe that with the plethora of new and emerging technologies, the best way for young people to make a significant difference is to learn how to use these technologies to their best potential.

## 2017 NSW YOUTH COUNCIL CONFERENCE

The aim of the 2017 NSW Youth Council Conference is to give young people the knowledge and skills necessary to utilise emerging technologies and make change in their local communities. The Conference is being run by youth, for youth, with a key focus on the journeys of successful young people. Corporate partners from Macquarie Park and Macquarie University are also contributing invaluable support by providing an insight into new technologies and directions. Furthermore, the informed advice from NGOs and government representatives will ensure that the information given is realistic and can be applied practically. We look forward to you sharing with us your own personal journeys and coming away from the Conference inspired and confident in making a difference in the new world.
