

# Another City of Ryde infrastructure project

For a connected and accessible city

## Installation of Traffic Lights West Parade and Rowe Street Intersection, Eastwood

As part of the Eastwood Central project, the City of Ryde is installing traffic lights to replace the existing pedestrian crossing at West Parade between Eastwood Station and Rowe Street Plaza. The installation of these traffic lights is to help support and improve traffic congestion and pedestrian safety in Eastwood.

### What will the works include?

The works will be completed over three stages and will include:

#### Stage 1 (Eastwood Station side of street)

- Installation of new pedestrian islands and pram ramp
- Installation of traffic lights and traffic signal pits

#### Stage 2 (Rowe Street Plaza side of street)

- Installation of new pedestrian islands and pram ramp
- Installation of traffic lights, traffic signal pits and signage
- Replacement of bollards
- Landscaping as required

#### Stage 3 (both road lanes)

- Road re-sheeting and line-marking

### Timing Of Works

**Start of construction:** Monday 14 February 2022.  
**Expected completion:** May 2022, weather permitting.

Works will commence on Monday 14 February from 8.00pm to 3.00am. Works will primarily be carried out from Monday to Saturday between the hours of 7.00am and 5.00pm, with some night works when required.

### Changed Conditions

#### (Road closures and Parking)

During Stage 1 and Stage 2 works, traffic flow on West Parade will be directed through a single lane. Portable traffic lights will be in place to manage traffic and pedestrian movements safely.

Stage 3 works will require a full road closure over a two day period. Some of these works will be carried out at night to ensure minimal disruption.

For the duration of the works, the six parking spaces on the plaza side (between Hillview Lane and the pedestrian crossing) will need to be used and unavailable to the public.

Access to the shops and businesses will be maintained.

Further notifications will be provided by Council's contractor, Hix Group as works progress.
