## **Fees for service in 2006 - 2007**

Fees for services provided by Council are shown in the following pages in this section. Each fee that Council sets is categorised as A, B, C, D, E or F. These categories denote the primary policy principle used in setting the fee as follows:

- A The fee charged for this good/service is a statutory charge set by government regulation, and is subject to variation without notice.
- B The fee charged for this good/service is set to derive a partial contribution to the cost of providing the service – a percentage of the cost of the service is met from general income (including special purpose grants).
- C The fee charged for this good/service is set by reference to fees charged for similar goods/services provided by like Councils.
- D The fee charged for this good/service is set to recover the annual and/or maintenance costs. The costs of any assets used in provision of the good/service are met from general income (including general purpose grants).
- E The fee charged for this good/service is set to recover the full cost of its provision, including the cost of replacement of assets and the cost of fixed overheads used in the provision of the good/service.
- F The fee charged for this good/service is set to generate an appropriate rate of return on the capital invested.

**Note:** The General Manager has the power to reduce or waive fees where there is justification.
