# Generic Plan of Management

## Sportsgrounds Parks Natural Areas General Community Use

### **NOTE:**

**A number of the parks covered by this 2001 Generic Plan of Management are now contained in the Generic Plans of Management for Parks, General Community Use, Sportsgrounds and Natural Areas which have now been adopted in by Council. The applicable parks have been annotated in this document.**

**For a full list of parks and to refer to the relevant Plan of Management, use the following link:**

**<https://www.ryde.nsw.gov.au/Council/Plans-and-Publications/Parks-and-Open-Space>**

Urban Landscape Services  
Ryde City Council  
November 2001

## Preface

The Plan of Management has been updated to reflect the preparation and subsequent adoption of revised Plans of Management for the following Parks:

Park Name	Revised Plan of Management	Adopted by Council
Booth Reserve	Shrimptons Creek Parklands Plan of Management	13 November 2012
Brush Farm Park	Brush Farm Park and Lambert Park Plan of Management	26 May 2009
ELS Hall Park	Shrimptons Creek Parklands Plan of Management	13 November 2012
Field of Mars Reserve	Field of Mars Plan of Management	9 September 2009
Flinders Park	Shrimptons Creek Parklands Plan of Management	13 November 2012
Greenwood Park	Shrimptons Creek Parklands Plan of Management	13 November 2012
Lambert Park	Brush Farm Park and Lambert Park Plan of Management	26 May 2009
Morrison Bay Park	Morrison Bay Park Plan of Management	1 December 2009
Putney Park	Putney Park Plan of Management	11 October 2011
Santa Rosa Park	Shrimptons Creek Parklands Plan of Management	13 November 2012
Tindarra Reserve	Shrimptons Creek Parklands Plan of Management	13 November 2012
Wilga Park	Shrimptons Creek Parklands Plan of Management	13 November 2012
Yamble Reserve	Yamble Reserve Plan of Management	11 February 2014

All reference to the above mentioned Parks and Reserve has been struck out of this Plan of Management. Accordingly, this Plan of Management is superseded for the above mentioned Parks and Reserves on the date of Council adoption of the revised Plan of Management.

# Part A

# Introduction

## 1. About this document

This document is the generic plan of Management for all Community Land in the City of Ryde.

The document is structured in accordance with the Local Government Act 1993 (as amended). For clarity and ease of reference, relevant extracts from the Act are included at the start of each section.

## 2. Public Land

Note from the Local Government Act 1993 Part 2 - Public Land

Note: This part requires all land vested in a council (except a road or land to which the **Crown Lands Act 1989** applies) to be classified as either "community" or "operational".

The classification will generally be achieved by a local environmental plan but may, in some circumstances, be achieved by resolution of the council (see sections 31, 32 and 33).

The purpose of classification is to identify clearly that land which should be kept for use by the general public (community) and that land which need not (operational). The major consequence of classification is that it determines the ease or difficulty with which land may be alienated by sale, leasing or some other means.

Community land must not be sold. Community land must not be leased or licensed for more than 21 years and may only be leased or licensed for more than 5 years if public notice of the proposed lease or licence is given and, in the event that an objection is made to the proposed lease or licence, the Minister's consent is obtained. No such restrictions apply to operational land.

Classification or reclassification of land does not affect any estate or interest a council has in the land.

Community land would ordinarily comprise land such as a public park. Operational land would ordinarily comprise land held as a temporary asset or as an investment, land which facilitates the carrying out by a council of its functions or land which may not be open to the general public, such as a works depot or a council garage.

The use and management of community land is to be regulated by a plan of management. Until a plan of management is adopted, the nature and use of the land must not change.

### 3. Categorisation of Community Land

The highlighted extracts from the Act are addressed in this section.

Preparation of draft plans of management for community land

#### **Section 36.**

- 1. A council must prepare a draft plan of management for community land.**
  - 2. A draft plan of management may apply to one or more areas of community land, except provided by this division.**
  - 3. A plan of management for community land must identify the following:**
    - a. the category of the land;
    - b. the objectives and performance targets of the plan with respect to the land;
    - c. the means by which the council proposes to achieve the plan's objectives and performance targets;
    - d. the manner in which the council proposes to assess its performance with respect to the plan's objectives and performance targets, and may require the prior approval of council to the carrying out of any specified activity on the land.
- 3a. A plan of management that applies to just one area of community land:
- a. must include a description of:
    - i. the condition of the land, and of any buildings or other improvements on the land, as at the date of adoption of the plan of management, and
    - ii. the use of the land and any such buildings or improvements as at that date, and
  - b. must:
    - i. specify the purposes for which the land, and any such buildings or improvements, will be permitted to be used, and
    - ii. Specify the purposes for which any further development of the land will be permitted, whether under lease or licence or otherwise, and
    - iii. describe the scale and intensity of any such permitted use or development.

#### **4. For the purposes of this section, land is to be categorised as one or more of the following:**

- a. a natural area;**
  - b. a sportsground;**
  - c. a park;**
  - d. an area of cultural significance;**
  - e. general community use.**
- 5. Land that is categorised as a natural area is to be further categorised as one or more of the following:**
- a. bushland;**

- b. wetland;**
  - c. escarpment;**
  - d. watercourse;**
  - e. foreshore;**
  - f. a category prescribed by the regulations.**
- 6. The regulations may make provision for or with respect to the categorisation of community land under this section, including:**
- a. defining any expression used in subsection (4) or (5), and**
  - b. prescribing guidelines for the categorisation of community land and the effect of any guidelines so prescribed.**

Some areas of Community Land contain a number of categories described above. The specific categories relevant to each parcel of Community Land have been produced graphically on A3 maps. (Appendix A). These maps can be viewed in conjunction with the following table to provide the required land information.

3.1 Categorisation and Location of Community Land (see also Appendix A - Maps)

Name	Location	Lots	DPS	Owners	Area (Ha)	LG Category	Natural Area Sub Category	Zoning	Park Number	Park Allocation	History

# Management

---

## 4. Management of Community Land

This section provides information on how Council in accordance with the Act are addressed in this section.

This section also includes the Core Objectives for each category of Community land as described in the Act.

Preparation of draft plans of management for community land

### **Section 36.**

- 1. A council must prepare a draft plan of management for community land.**
- 2. A draft plan of management may apply to one or more areas of community land, except provided by this division.**
- 3. A plan of management for community land must identify the following:**
  - a. the category of the land;**
  - b. the objectives and performance targets of the plan with respect to the land;**
  - c. the means by which the council proposes to achieve the plan's objectives and performance targets;**
  - d. the manner in which the council proposes to assess its performance with respect to the plan's objectives and performance targets, and may require the prior approval of council to the carrying out of any specified activity on the land.**
- 3a. A plan of management that applies to just one area of community land:
  - a. must include a description of:
    - i. the condition of the land, and of any buildings or other improvements on the land, as at the date of adoption of the plan of management, and
    - ii. the use of the land and any such buildings or improvements as at that date, and
  - b. must:
    - i. specify the purposes for which the land, and any such buildings or improvements, will be permitted to be used, and
    - ii. specify the purposes for which any further development of the land will be permitted, whether under lease or licence or otherwise, and
    - iii. describe the scale and intensity of any such permitted use or development.
4. For the purposes of this section, land is to be categorised as one or more of the following:
  - a. a natural area;
  - b. a sportsground;
  - c. a park;
  - d. an area of cultural significance;
  - e. general community use.

5. Land that is categorised as a natural area is to be further categorised as one or more of the following:
  - a. bushland;
  - b. wetland;
  - c. escarpment;
  - d. watercourse;
  - e. foreshore;
  - f. a category prescribed by the regulations.
6. The regulations may make provision for or with respect to the categorisation of community land under this section, including:
  - a. defining any expression used in subsection (4) or (5), and
  - b. prescribing guidelines for the categorisation of community land and the effect of any guidelines so prescribed.

# Sportgrounds

## 5. Sportgrounds

### 5.1 Core Objectives for management of community land categorized as Sportsgrounds

**Section 36F** The core objectives for management of community land categorized as a Sportsground are:

- a. to encourage, promote and facilitate recreational pursuits in the community involving organised and informal sporting activities and games, and
- a. to ensure that such activities are managed having regard to any adverse impact on nearby residences.

### 5.2 Management Statement & Objectives

#### **Statement**

Sportsgrounds in the city of Ryde will be managed to provide active recreation opportunities for the Ryde Region which will optimise availability by providing a balance between physical use and the carrying capacity of the reserves and recognising their potential for mitigating the effects of urban stormwater drainage.

#### **Objectives**

When this plan of management is implemented we will have;

- optimised use of sportsgrounds, and
- well maintained Sportsgrounds, and
- undertaken future planning in relation to Sportsgrounds.

### 5.3 Specific Policy

#### **Leases, Licenses & other estates Policy**

Leases, licenses or other estates over sportsgrounds or designated areas within sportsgrounds will be permitted under this plan of management for the purposes of sports use including the provision of built sporting recreation facilities; providing:

- a. the type of use proposed and/or any required facilities being to the benefit of the community of Ryde and meet a recognised need, and
- b. Council approval of the proposed tenure term, and
- c. the requirements of the Local Government Act 1993, Amendment 1998 & Regulation 1999 (see appendix B), and
- d. the requirements of Council's Local Environment Plan (LEP) relating to permissible uses, and
- e. the negotiation of an appropriate lease, license or other estate fee, and
- f. specific conditions contained in the lease agreement.

### **Community Land Easement Policy**

Council will permit the granting of easements from properties adjoining community land for connection to Council facilities and / or other public authorities or **cross community classified land** as per Section 46 of the Local Government (Community Land Management) Amendment Act 1998, subject to the following conditions which will be listed in the relevant Plan Of Management:

Easements will be granted for the purposes described above subject to a fee being paid by the developer based on a valuation of the land required **assessment to be based upon the enhancement to the dominant tenement and the impact upon the servient tenement, and**

- Council approval of the proposed location, **design and engineering requirements** which will be based on:
  - a. Council's stormwater drainage management requirements and
  - b. Compliance with Community Land core objectives (as described in the Act) and
  - c. Location of and impact on existing assets and infrastructure **and**
- Stormwater to be connected directly into existing facilities or piped directly into natural watercourses to avoid overland flow **and**
- The proposed works requiring no disturbance to the surface of areas of community land categorised as Natural **and**
- Stormwater design to include details of the proposed outlet structure if into a watercourse **and**
- **Satisfaction of any required reports e.g. hydrological, geochemical, geotechnical, archeological etc. of the proposed tour of the future installation and its constructions method and associated sub and sub-soil rehabilitation and**
- Stormwater proposals to include on-site detention systems, including nutrient and sediment control devices as per Council's Stormwater Policy for Development **and**
- The cost of all works to be borne by the developer **and**
- Each individual application to be assessed by relevant Council officers on a merit basis **and**
- Council being satisfied that no other reasonable alternative exists **and**
- Compliance with SEPP 19 **and**
- Compliance with relevant statutory requirements **and**
- **Conditions of any easement to cover the installation and future maintenance and access requirements, that are satisfactory to Council and**
- Review of continuing need or alternative site for existing easements **and**
- Negotiation with the easement holder regarding existing easement maintenance practices **and**
- Easements may not be granted for areas of community land listed as Critical Habitat or which is subject to a Threat Abatement Plan under the Threatened Species Conservation Act or the Fisheries Act.

### **Application fee**

- **Council will only consider a request for a private easement, via the completion of an application in the prescribed format that must be accompanied by a non-refundable application fee, as detailed within**

**Council's Management Plan.**

**5.4 Management Objectives & Proposed Performance for Community Land categorized as Sportsgrounds**

Management Objectives	Proposed Performance	Assessment of Proposed Performance	Activity to achieve Management Objectives and Proposed Performance	
Optimised Sportsfield Use	Usage of Sportsfields	Use more than 50% of available time in one season	Review reserve usage levels	
			Establish areas of low use.	
			Assess reasons for low use.	
			Reassess value as a sportsground.	
			Actively promote its availability within the sporting community	
			OR	
	Efficient & clear system of securing use		Delete use as sportsfield.	
			Establish procedures & categories for seasonal & casual hire, night & day	
			Review fees & bonds annually	
			Develop & distribute clear guidelines for conditions of use which indicate the responsibilities & liabilities for park hirers both on the park and in regard to adjoining properties.	
			Considerations given to appropriateness of the requested use on available parks, frequency of use, level of use & associated requirements for that particular use such as parking & spectator numbers.	
	Appropriate access provided	Illegal access prohibited	Identify illegal vehicular access points & provide barriers	
			Identify park boundaries & determine encroachments	
			Remove encroachments & dumped refuse.	
			Formalise access requirements of service authorities.	
			Provide an education program for adjoining residents to assist in the identification of sources of illegal access and its cessation	
			Incorporate in standardised & clear signage information regarding illegal access	
	Equal access for legitimate park use provided where feasible		Provide access for maintenance, emergency & other vehicles as may be required.	
			Provide car parks where appropriate	
			Provide equal access from car parks & street entrances to major parks & facilities	

Management Objectives	Proposed Performance	Assessment of Proposed Performance	Activity to achieve Management Objectives and Proposed Performance
Optimised Sportsfield Use	Appropriate access provided	Equal access for legitimate park use provided where feasible	Incorporate items such as even surfaced paths, pram ramps & accessible grades.
			Investigate the development of a linked path network to the other open space areas.
	Park signage	Information regarding use of the park to be contained in a standardised interpretive system for all sportsfields	Undertake survey of existing park signage
			Assess requirements for information to be conveyed.
		Information regarding use of the park to be contained in a standardised interpretive system for all sportsfields	Design appropriate signage system to accommodate information requirements.
			Remove unnecessary signage & install new signage system.
Well Maintained Sportsfields	Turf quality	Full grass cover over sportsfield.	Undertake sports turf management practices under qualified guidance.
			Ensure irrigation systems are in working order prior to commencement of season water use.
			Minimise water use
	Well drained surface quality	Available for competition sports.	Assess areas of poor drainage
			Develop programs for remediation
	Presence of litter	Grounds litter free	Daily check of grounds & bins
		No overflowing Bins	Bins emptied Mondays
	Satisfaction of those with bookings	Sportsfield available for use for particular sport booked, at time & date agreed.	Obtain agreement on requirements for sport booked between booking body & Council staff
			Ensure booking program is sent to the staff responsible for that sportsfield
			Undertake sportsfield preparation as required
			Ensure standard is up to that agreed to by Council and booking body throughout the season.
	Condition of structures & furniture	All park structures & furniture undamaged, clean & ready for use	Monthly check of all structures & furniture with works orders for repairs submitted
	Condition of toilets & change rooms	Building structurally sound, clean, no odour, dirt or mess.	Daily check & replacement of items. Weekly clean. Works orders for repairs submitted. Council staff to open & close buildings unless special arrangements made.
		Paper & soap available	
		Lights working	
		Buildings locked after daylight hours unless special arrangements made.	
Improved Relations with Adjoining Residents	Complaints	No Complaints from adjoining properties due to misuse of fields or maintenance issues.	Ensure conditions of use by sporting clubs are adhered to. Consider compatibility of use with surrounding environment when allocate fields for sporting groups

Management Objectives	Proposed Performance	Assessment of Proposed Performance	Activity to achieve Management Objectives and Proposed Performance
Improved Relations with Adjoining Residents	Complaints	No Complaints from adjoining properties due to misuse of fields or maintenance issues.	Encourage communication between Council & adjoining properties to assist in the reducing vandalism, loitering, illegal drainage, illegal access & encroachments
Enhanced Natural Systems	Survival of remnant bushland	Decreased presence of invasive weeds.	Undertake bushland restoration activity
		Retention of existing endemic plant communities	Notify adjoining residents of problems & request assistance
		Regrowth of endemic species	Install signage
		Reduced nutrients entering the reserve from private property	Install fencing
Enhanced Natural Systems	Survival of remnant bushland	Ecological burns for regeneration of fire responsive plants	Identify threatened fire responsive plants in the park
			Co-ordinate burns with fuel reduction burns. Obtain approval from relevant authorities
	Erosion activity controlled	Stormwater discharged directly into creek.	To be considered as part of Council's drainage review. Assess banks & safe path alignments. Undertake construction of pedestrian accessways. Advise residents of the problem & request removal of illegal drains - failure to result in notice being issued.
		Creek banks stabilised	
		Formal pedestrian accessways	
		No private swimming pool discharge directly onto Reserve	
Reduced fire risk	No loss of life or property	10m-fuel reduction zone immediately adjacent to adjoining properties.	Undertake as part of maintenance program. Engage local community for assistance. Undertake fuel reduction practices when standard exceeded. Advise local residents of the problem & remove waste. Engage local community groups of assistance. Install fencing to perimeter of park. Undertake as part of regular maintenance & advise local residents of the problem.
		No greater than 10-15 tonnes/ha of fuel on the ground	
		No dumped garden waste	
		No obstructions to fire breaks	
Improved Fauna Habitat	Sightings of fauna	No loss of existing habitats	Undertake bushland restoration activity.
			Engage community where appropriate
			Prohibition of uses which damage habitats
Appropriate Pedestrian Access	Availability of appropriate pathways	Pedestrian access available year round.	Identify and install pathway as per standards stated in this document. Pathway to be clearly marked. Additional interpretive signage included. Incorporate firm footing surfaces & relevant gradients where possible. Where full access to interpretative material or specific sites as appropriate.
		Access constructed to move appropriately direct pedestrian traffic into & through bushland where desirable	
		Path sited on even land with smooth gradients where possible.	
		Equal access opportunities provided where possible	

Management Objectives	Proposed Performance	Assessment of Proposed Performance	Activity to achieve Management Objectives and Proposed Performance
Appropriate Pedestrian Access	Availability of appropriate pathways	Construction in line with National Parks & Wildlife Standards	Identify and install pathway as per standards stated in this document. Pathway to be clearly marked. Additional interpretive signage included. Incorporate firm footing surfaces & relevant gradients where possible. Where full access to interpretative material or specific sites as appropriate.
		No deterioration in bushland quality as a result of pathway.	
Consolidation of Bushland Boundaries	Park boundaries clearly defined	All boundaries clear to public	Install boundary markers.
			Install signage-explaining importance of parkland.
Future Needs Planned	Leisure needs study	5-year plan developed & adopted.	Collect & map demographic data for Ryde.
			Review trends in sportsfield bookings
			Obtain population predictions for the area
			Review Open Space Facilities Plan
			Establish deficiencies & prepare program to address them.
			Establish best use of available resources
	Ryde Stormwater Drainage Strategy	Requirement of Sportsgrounds for flood mitigation & stormwater control established	Ryde Drainage review completed.
			Checklist on p41 applied to potential stormwater control Sportsgrounds
			Sportsgrounds to be used nominated and plans developed.

# Parks

## 6. Parks

### 6.1 Core Objectives for management of community land categorized as Park

**Section 36G** The core objectives for management of community land categorized as a Park are:

- a. to encourage, promote and facilitate recreational, cultural, social and educational pastimes and activities, and
- b. to provide for passive recreational activities or pastimes and for the casual playing of games, and
- c. to improve the land in such a way as to promote and facilitate its use to achieve the other core objectives for its management.

### 6.2 Management Statement & Objectives

#### **Statement**

Parks will be managed as the venue for passive recreation within the City of Ryde and also provide for the development of green corridors and urban drainage control where feasible.

#### **Objectives**

When this plan of management is implemented we will have;

- well maintained parks
- accessible parks
- provided a range of passive recreation facilities within each neighbourhood via a system of parks
- undertaken future planning in relation to parks..

### 6.3 Specific Policy

#### **Leases, Licenses & other estates Policy**

Leases, licenses or other estates over sportsgrounds or designated areas within parks will be permitted under this plan of management for the purposes of passive recreation including the provision of buildings and structures, providing:

- a. the type of use proposed and/or any required facilities being to the benefit of the community of Ryde and meet a recognised need, and
- b. Council approval of the proposed tenure term, and
- c. the requirements of the Local Government Act 1993, Amendment 1998 & Regulation 1999 (see appendix B), and
- d. the requirements of Council's Local Environment Plan (LEP) relating to permissible uses, and
- e. the negotiation of an appropriate lease, license or other estate fee, and
- f. specific conditions contained in the lease agreement.

### **Community Land Easement Policy**

Council will permit the granting of easements from properties adjoining community land for connection to Council facilities and / or other public authorities **or cross community classified land** as per Section 46 of the Local Government (Community Land Management) Amendment Act 1998, subject to the following conditions which will be listed in the relevant Plan Of Management:

- Easements will be granted for the purposes described above subject to a fee being paid by the developer based on a valuation of the land required **assessment to be based upon the enhancement to the dominant tenement and the impact upon the servient tenement, and**
- Council approval of the proposed location, **design and engineering requirements** which will be based on:
  - a. Council's stormwater drainage management requirements and
  - b. Compliance with Community Land core objectives (as described in the Act) and
  - c. Location of and impact on existing assets and infrastructure **and**
- Stormwater to be connected directly into existing facilities or piped directly into natural watercourses to avoid overland flow **and**
- The proposed works requiring no disturbance to the surface of areas of community land categorised as Natural **and**
- Stormwater design to include details of the proposed outlet structure if into a watercourse **and**
- **Satisfaction of any required reports e.g. hydrological, geochemical, geotechnical, archeological etc. of the proposed tour of the future installation and its constructions method and associated sub and sub-soil rehabilitation and**
- Stormwater proposals to include on-site detention systems, including nutrient and sediment control devices as per Council's Stormwater Policy for Development **and**
- The cost of all works to be borne by the developer **and**
- Each individual application to be assessed by relevant Council officers on a merit basis **and**
- Council being satisfied that no other reasonable alternative exists **and**
- Compliance with SEPP 19 **and**
- Compliance with relevant statutory requirements **and**
- **Conditions of any easement to cover the installation and future maintenance and access requirements, that are satisfactory to Council and**
- Review of continuing need or alternative site for existing easements **and**
- Negotiation with the easement holder regarding existing easement maintenance practices **and**
- Easements may not be granted for areas of community land listed as Critical Habitat or which is subject to a Threat Abatement Plan under the Threatened Species Conservation Act or the Fisheries Act.

### **Application fee**

**Council will only consider a request for a private easement, via the completion of an application in the prescribed format that must be accompanied by a non-refundable application fee, as detailed within**

**Council's Management Plan.**

**6.4 Management Objectives & Proposed Performance for Community Land categorized as Park**

Management Objectives	Proposed Performance	Assessment of Proposed Performance	Activity to achieve Management Objectives and Proposed Performance
Parks Maintained	Grass quality	Full cover length >20, <100mm	Implement mowing program. Undertake turf maintenance as required
	Garden beds	Weed free Rubbish free Mulched Healthy viable plants	Minimum monthly bed clean up. Apply 100mm cover mulch. Replace dead/diseased plants. Undertake horticultural maintenance as required.
	Litter	Grounds litter free No overflowing bins	Regular check of bins/grounds Bins emptied Mondays where possible and as required
	Footpaths/Steps	Clear of obstructions Weed free Safe No damage	Remove any weeds in pavements Barricade any dangerous/broken sections & arrange repairs at earliest opportunity
	Irrigation (where installed)	Operational	Check of whole system, minimum twice a year Weekly assessment of watering Arrange plumbers, as required
Furniture Maintained	Lights function Poles undamaged (where installed)	All lights operational No chipped paint, bent poles or broken luminaries	Monthly check Repaint damage annually Replace broken or repair fixtures & fittings within two weeks of being notified
	Seats useable (where installed)	No broken slats All seats fixed to ground, no missing bolts Clean	Monthly check or as reported Replace broken or repaint item as required Clean as required
	Drinking fountain useable (where installed)	Clean Not leaking	Arrange plumber as required
	Picnic shelters useable (where installed)	Clean, undamaged	Arrange repairs as required
	Rubbish Bins useable (where installed)	Clean, undamaged	Monthly check or as reported
	Signage visible (where installed)	Clean, undamaged	Monthly check or as reported
Structures Maintained	Condition	All park structures undamaged, clean & available for use	Monthly check of all structures with works order for repairs submitted
Toilets Maintained	Condition	Toilet building clean, no odour, dirt or mess Paper & soap available Lights working	Daily check & replacement of items Works orders for repairs submitted Ranger to open & close
	Availability	Open daylight hours or by specific arrangement	
Playground Maintained	Condition	Undamaged Painted Constructed to Council specifications	Quarterly check of condition

Management Objectives	Proposed Performance	Assessment of Proposed Performance	Activity to achieve Management Objectives and Proposed Performance
Playground Maintained	Safety	Reduced risk of accidents	Quarterly check of structural elements Regular check of safety surface for glass, needles & rubbish
Appropriate Access Provided	Illegal access	Illegal access prohibited	Identify illegal vehicular access points & provide barriers. Identify park boundaries & determine encroachments Remove encroachments & dumped refuse Formalise access requirements of service authorities. Provide an education program for adjoining residents to assist in the identification of sources of illegal access and its cessation Incorporate in standardised & clear signage information regarding illegal access
		Equal access for legitimate park use provided, where feasible, in accordance with Council's Access Policy.	Provide access for maintenance, emergency & other vehicles as may be required. Provide car parks where appropriate. Provide equal access from car parks & street entrances to major park facilities such as BBQs, toilets & play equipment. Incorporate items such as even surfaced paths, pram ramps & accessible grades. Investigate the development of a linked path network to other open space areas.
Future Needs Planned	Leisure Needs Study Open Space & Recreation Facilities Plan  Ryde Stormwater Drainage Strategy	5 year plan developed  Requirements of Parks for flood mitigation & stormwater control established	Collect & map demographic data for Ryde. Review trends in Park use for district Parks & Local Open Space. Obtain population predictions for the area. Review Open Space & Recreation Facilities Plan. Establish deficiencies & prepare program to address them. Establish best use for available resources. Review policy on dog exercise with the view to establishing leash free areas. Ryde Drainage Review completed. Checklist on p 27 applied to potential stormwater control Parks. Parks to be used nominated & plans developed.

# Natural Areas

## 7. Natural Areas

### 7.1 Core Objectives for management of community land categorized as Natural Area

**Section 36E** The core objectives for management of community land categorized as a Natural Area are:

- a. to conserve biodiversity and maintain ecosystem function in respect of the land, or the feature or habitat in respect of which the land is categorised as a natural area.
- b. to maintain the land, or that feature or habitat, in its natural state and setting.
- c. Provide for the restoration and regeneration of the land.
- d. to provide for community use and access to the land in such a manner as will minimise and mitigate any disturbance caused by human intrusion.
- e. to assist in and facilitate the implementation of any provisions restricting the use and management of the land that are set out in a recovery plan or threat abatement Plan prepared under the Threatened Species Conservation Act 1995 or the Fisheries Management Act 1994.

### 7.2 Core Objectives for management of Community Land categorised as bushland

**Section 36J** The core objectives for management of community land categorised as bushland are:

- a. to ensure the ongoing ecological viability of the land by protecting the ecological biodiversity and habitat values of the land, the flora and fauna (including invertbrates, fungi and micro-organisms) of the land and other ecological values of the land, and
- b. to protect the aesthetic, heritage, recreational, educational and scientific values of the land.
- c. To promote the management of the land in manner that protects and enhances the values and quality of the land and facilities public enjoyment of the land, and to implement measures directed to minimising or mitigating any disturbance caused by human intrusion.
- d. To restore degraded bushland
- e. To protect existing landforms such as natural drainage lines, watercourses and foreshores.
- f. To retain bushland parcels of a size and configuration that will enable the existing plant and animal communities to survive in the long term.
- g. To protect bushland as a natural stabilizer of the soil surface

### 7.3 Core objectives for management of community land categorised as wetland

**Section 36K** The core objectives for management of community land categorised as wetland are:

- a. to protect the biodiversity and ecological values of wetlands, with particular reference to their hydrological environment (including water quality and water flow), and to the flora, fauna and habitat values of the wetlands, and
- b. to restore and regenerate degraded wetlands, and
- c. to facilitate community education in relation to wetlands, and the community use of

- d. wetlands, without compromising the ecological values of wetlands.

#### **7.4 Core objectives for management of community land categorised as an escarpment**

**Section 36L** The core objectives for management of community land categorised as an escarpment are:

- a. to protect any important geological, geomorphological or scenic features of the escarpment, and
- b. to facilitate safe community use and enjoyment of the escarpment

#### **7.5 Core objectives for management of community land categorised as a watercourse**

**Section 36M** The core objectives for management of community land categorized as watercourse are:

- a. To manage watercourses so as to protect the biodiversity and ecological values of the instream environment, particularly in relation to water quality and water flows.
- b. To manage watercourses so as to protect the riparian environment, particularly in relation to riparian vegetation and habitats and bank stability.
- c. To restore degraded watercourses.
- d. To promote community education, and community access to and use of the watercourse, without compromising the other core objectives of the category.

#### **7.6 Core objectives for management of community land categorised as foreshore**

**Section 36N** The core objectives for management of community land categorised as foreshore are:

- a. to maintain the foreshore as a transition area between aquatic and the terrestrial environment, and to protect and enhance all functions associated with the foreshore's role as a transition area, and
- b. to facilitate the ecologically sustainable use of the foreshore, and to mitigate on the foreshore by community use

### **7.7 Management Statement & Objectives**

#### **Statement**

Natural areas will be managed as an important component of the overall community land system in the City of Ryde. The guiding management principle will be to conserve remnant bushland and rehabilitate degraded areas to as natural a state as is feasible, in keeping with natural ecological processes and with recognition of urban stormwater drainage flowpaths, whilst facilitating public enjoyment and use by all age groups, subject to available resources.

#### **Objectives**

When this plan of management is implemented we will have:

- a. Council's philosophy for natural areas management defined;
- b. Natural features:

- high quality, enhanced, rejuvenating remnant bushland areas,
  - minimising creekline erosion, improved water quality,
  - ecological habitats being conserved and properly maintained,
  - preserved natural geological features,
  - reduced threat to life and property by fire,
  - rationalised pedestrian access
  - defined natural area boundaries,
  - established a program of community education,
  - allocated resources efficiently.
- c. Built Structures;
- appropriate use of existing community buildings within natural areas,
  - interpretive, educational and directional signs,
  - rationalised pedestrian pathway system,
  - seats and other furniture provided, where appropriate to natural areas,
  - Aboriginal sites or historical sites identified and protected,
  - Sympathetically designed and sited urban stormwater drainage control devices.

And we will have worked within the following constraints:

- Council's budget,
- SEPP19 and other relevant legislative requirements.

## 7.8 Specific Policy

### ***General Policy***

Natural Areas will be managed according to the Core Objectives for Natural Areas and sub categories, but will also include the following guidelines:

- a. Priority Management for Endangered Ecological Communities than are listed on the GIS system.
- b. All bush regeneration techniques are to utilise natural regeneration methods wherever possible.
- c. Where native seed bank may remain in the soil, it is preferable to utilise fire, ripping of the soil or other techniques to encourage natural regeneration. Although a slower process than planting, this is a more natural process utilising the immediate provenance seed bank. Planting should only be undertaken where absolutely necessary as a last resort, for example, in locations of modified soil or replacement of species previously recorded but subsequently lost from a reserve. All propagules are to be collected from within the immediate vicinity of the site. Any exceptions to this policy must be scientifically valid for flora and/or fauna management and meet the following requirements:
- d. All additional species and provenance propagules should be recorded on the Council vegetation

data base for each reserve.

- e. All collections must be made as locally as possible from naturally occurring plants in similar habitat to that in the planting area.
- f. The reason for utilising particular rehabilitation planting material must be understood and recorded.
- g. Where landscaping involves use of local native plants all propagules should be collected within Ryde City or within one kilometre of the site.
- h. Species used for planting in or adjacent to bushland being either for restoration or landscaping must be restricted to:
  - i. Locally occurring indigenous plants that have been recorded within the reserve;
  - ii. Locally occurring indigenous plants that have been recorded within the immediate vicinity of the reserve and are a normal component of the reserves endemic vegetation.
- i. All bushland designated plantings must be acceptable to Ryde City Council via the appropriate bushland management officer and be in accordance with the particular reserve Plan of Management.
- j. All Plantings should take account of the local built environment, for example, high level stormwater discharge capacities, proximity to sewer mains and other utility locations.
- k. Bushland areas will be increased where possible to reverse the trend of reduction and gradual destruction of Natural Areas.
- l. Dogs will not be permitted in Natural Areas.
- m. Project planning will incorporate ongoing maintenance works required to consolidate regenerated areas.

### ***Leases, Licenses & other estates Policy***

Leases, licenses or other estates will not be permitted in community land classified as Natural Areas other than for the purposes prescribed under the Act, subject to::

- a. the type of use proposed and/or any required facilities being to the benefit of the community of Ryde and meet a recognised need, and
- b. Council approval of the proposed tenure term, and
- c. the requirements of the Local Government Act 1993, Amendment 1998 & Regulation 1999 (see appendix B), and
- d. the requirements of Council's Local Environment Plan (LEP) relating to permissible uses, and
- e. the negotiation of an appropriate lease, license or other estate fee, and
- f. specific conditions contained in the lease agreement.

### ***Community Land Easement Policy***

Council will permit the granting of easements from properties adjoining community land for connection to Council facilities and / or other public authorities **or cross community classified land** as per Section 46 of the Local Government (Community Land Management) Amendment Act 1998, subject to the following

conditions which will be listed in the relevant Plan Of Management:

- Easements will be granted for the purposes described above subject to a fee being paid by the developer based on a valuation of the land required ***assessment to be based upon the enhancement to the dominant tenement and the impact upon the servient tenement***, and
- Council approval of the proposed location, ***design and engineering requirements*** which will be based on:
  - a. Council's stormwater drainage management requirements and
  - b. Compliance with Community Land core objectives (as described in the Act) and
  - c. Location of and impact on existing assets and infrastructure ***and***
- Stormwater to be connected directly into existing facilities or piped directly into natural watercourses to avoid overland flow ***and***
- The proposed works requiring no disturbance to the surface of areas of community land categorised as Natural ***and***
- Stormwater design to include details of the proposed outlet structure if into a watercourse ***and***
- ***Satisfaction of any required reports e.g. hydrological, geochemical, geotechnical, archeological etc. of the proposed tour of the future installation and its constructions method and associated sub and sub-soil rehabilitation and***
- Stormwater proposals to include on-site detention systems, including nutrient and sediment control devices as per Council's Stormwater Policy for Development ***and***
- The cost of all works to be borne by the developer ***and***
- Each individual application to be assessed by relevant Council officers on a merit basis ***and***
- Council being satisfied that no other reasonable alternative exists ***and***
- Compliance with SEPP 19 ***and***
- Compliance with relevant statutory requirements ***and***
- Conditions of any easement to cover the installation and future maintenance and access requirements, that are satisfactory to Council ***and***
- Review of continuing need or alternative site for existing easements ***and***
- Negotiation with the easement holder regarding existing easement maintenance practices ***and***
- Easements may not be granted for areas of community land listed as Critical Habitat or which is subject to a Threat Abatement Plan under the Threatened Species Conservation Act or the Fisheries Act.

#### ***Application fee***

***Council will only consider a request for a private easement, via the completion of an application in the prescribed format that must be accompanied by a non-refundable application fee, as detailed within Council's Management Plan.***

## 7.9 Management Objectives & Proposed Performance for Community Land categorized as Natural Area

Management Objectives	Proposed Performance	Activity to achieve Management Objectives and Proposed Performance
Appropriate use of existing community buildings within natural areas	Refer to Local Government Act Amendment for community land 1998.	Apply as building principles for assessment of any proposed lease, license or other estate application & in the drafting of those documents
High quality, enhanced, rejuvenating remnant bushland areas	Retention of existing endemic plant communities	<ul style="list-style-type: none"> <li>Control weeds in high priority areas.</li> <li>Undertake bushland restoration activity</li> <li>Engage community where appropriate</li> </ul>
	Reduced nutrients entering the reserve from private property	<ul style="list-style-type: none"> <li>Incorporate impact on urban bushland of any development through the establishment of Development Control Plans</li> <li>Notify adjoining residents of problems &amp; request assistance</li> <li>Install signage</li> <li>Install boundary markers</li> <li>Ecological burns for regeneration of fire responsible plants</li> <li>Identify threatened fire responsive plants in the park</li> <li>Co-ordinate burns with fuel reduction burns</li> <li>Obtain approval from relevant authorities</li> <li>Maintain records of fire</li> <li>Establish a database</li> <li>Undertake flora and fauna surveys in natural areas</li> <li>Record on an accessible system (e.g. GIS)</li> <li>Review at 5 year intervals and assess change/improvement</li> </ul>
	Maintenance of biodiversity	
	Reduced illegal dumping Removal of major rubbish on an annual basis	<ul style="list-style-type: none"> <li>Follow up any reported dumping</li> <li>12 monthly clearance incorporating local community volunteers</li> <li>Undertake community awareness/communication</li> </ul>
Minimise creekline erosion	Stormwater discharged directly into creek Creek banks stabilised Rationalise pedestrian accessways	<ul style="list-style-type: none"> <li>To be considered as part of council's drainage review</li> <li>Stormwater works being done in consideration of the check list</li> <li>Assess banks &amp; implement erosion control as necessary</li> <li>Identify logical &amp; safe path alignments</li> <li>Undertake rationalisation of pedestrian accessways</li> </ul>
Allocated resources efficiently	Available resources optimised Annual natural area budgets expended	<ul style="list-style-type: none"> <li>Review current resource allocations</li> <li>Assess resources required to implement this plan</li> <li>Reallocate resources to best achieve this plan within the limits of Council's Management Plan</li> <li>Encourage sub- catchment liaison to ensure all relevant parties are contributing effectively to the management of urban bushland</li> <li>Coordinate volunteers &amp; investigate the feasibility of a Community Advisory Committee</li> <li>Pursue grant funding assistance</li> </ul>
Improved water quality	No private drainage into creeklines Stormwater discharged directly into creeks Reduce nutrients entering reserves Reduce rubbish in reserves Stormwater works being done in consideration of the checklist	<ul style="list-style-type: none"> <li>Advise private owners to remove any illegal drains</li> <li>Incorporate in future drainage works program</li> <li>Remove any contaminants</li> <li>Regular cleanup – Engage local community for assistance</li> <li>Stormwater works being done in consideration of the checklist</li> <li>Develop DCPs for water quality maintenance in Council's LEP</li> </ul>

Management Objectives	Proposed Performance	Activity to achieve Management Objectives and Proposed Performance
Reduce threat to life & property by fire	<p>Fuel reduction zone immediately adjacent to adjoining properties maintained</p> <p>High fuel loading areas assessed every 12 months in conjunction with NSW Fire Brigades</p> <p>Prescribed burns implemented in a pattern appropriate to the ecology of the natural area</p> <p>Community education program implemented regarding effects of dumping &amp; illegal cultivation of natural areas</p>	<p>Implement as a priority</p> <p>Engage local community groups for assistance</p> <p>Visual assessment every 12 months</p> <p>Incorporate community representation</p> <p>Obtain clearances from fire brigade &amp; advise local owners</p> <p>Prepare burn plan for natural areas</p> <p>Maintain fire records</p>
Ecological habitats being conserved & maintained (flora & fauna)	No loss of existing habitats	<p>Undertake bushland restoration activity</p> <p>Engage community where appropriate</p> <p>Prohibition of uses which damage habitats</p> <p>Investigate &amp; implement appropriate feral &amp; domestic animal control measures</p> <p>Undertake fauna surveys &amp; record (GIS)</p>
Rationalised pedestrian access	<p>Access rationalised into and/or through bushland</p> <p>Construction in line with National Park &amp; Wildlife guidelines</p> <p>No deterioration in natural area quality as a result of pathways</p>	<p>Identify &amp; rationalise pathways</p> <p>Pathway to be clearly marked</p> <p>Additional interpretive signage included</p> <p>Incorporate firm footing surfaces &amp; relevant gradients where relevant</p> <p>Where full access is not achievable, incorporate access to interpretive material at specific sites as appropriate</p> <p>Determine suitable sites for equal access &amp; education opportunities</p>
Defined Natural Area boundaries	All boundaries clearly defined on site & clear to public & staff	<p>Survey boundaries</p> <p>Install boundary markers</p> <p>Install signage explaining importance of bushland &amp; its vulnerability</p> <p>Define "No – Mow" areas, e.g. by logging off for regenerating bush areas</p> <p>Provide information to maintenance staff re correct practices around these areas</p> <p>Initiate procedures with NPWS to incorporate natural areas adjoining Lane Cove National Park into the National Park Boundary</p>
Interpretive, educational & directional signs installed. Seats & other furniture provided	<p>Located close to pathway in ecologically appropriate areas</p> <p>Signage/furniture standard developed for use in all natural areas</p>	<p>Signs installed at relevant park entrances or appropriate sites including path system, corridor relationship &amp; any relevant environmental data</p> <p>Assess environmental impact &amp; requirement of any item's installation</p>
Sympathetically designed & sited urban stormwater drainage control devices	Refer to drainage checklist	Liase with Ryde City Council Drainage section to coordinate works in line with the performance measures
Preserved natural geological features	No loss of existing natural geological features (with due consideration for natural ecological processes)	<p>Avoid covering of natural geological features</p> <p>Consider views of or proximity to natural geological features in the rationalisation of access paths</p> <p>Maintain natural edge in preference to artificial edges</p> <p>Incorporate materials with relevance to natural geological features when undertaking remedial works (such as creek stabilisation)</p>

# General Community Use

## 8. General Community Use

### 8.1 Core Objectives for management of community land categorized as General Community Use

**Section 36I** The core objectives for management of community land categorised as general community use are to promote, encourage and provide for the use of the land, and to provide facilities on the land, to meet the current and future needs of the local community and of the wider public:

- a. in relation to public recreation and the physical, cultural, social & intellectual welfare or development of individual members of the public, and
- b. in relation to purposes for which a lease, license or other estate may be granted in respect of the land (other than the provision of public utilities and works associated with or ancillary to public utilities.).

### 8.2 Management Statement & Objectives

#### **Statement**

General Community Use Land will be managed as the venue for community activities within the City of Ryde.

#### **Objectives**

When this plan of management is implemented we will have;

- Venues for community activity in Ryde City.

### 8.3 Specific Policy

General Community Use will be managed as venue for community activity within the City of Ryde.

#### **Leases, Licenses & other estates**

Leases, licenses or other estates over General Community Use areas or designated General Community Use areas within parks and/or Reserves will be permitted under this Plan of Management for the purposes of providing uses of the land and to provide facilities on the land to meet the current and future needs of the local community and of the wider public; providing:

- a. The type of use proposed and/or any required facilities being to the benefit of the community of Ryde and meet a recognised need and/or the use is for a residential purpose in relation to housing owned by the Council in accordance with section 46 (l)(b)(iv), and
- b. Council approval of the proposed tenure term, and
- c. The requirements of the Local Government Act 1993, Amendment 1998 & Regulation 1999 (see Appendix B), and
- d. the requirements of Council's Local Environment Plan (LEP) relating to permissible uses, and
- e. the negotiation of an appropriate lease, license or other estate fee, and
- f. specific conditions contained in the lease agreement.

#### 8.4 Management Objectives & Proposed Performance for Community Land categorized as Natural Area

Management Objectives	Proposed Performance	Assessment of Proposed Performance	Activity to achieve Management Objectives and Proposed Performance
Maximum Usage	Facilities usable	Lease agreement	Provide adequate facilities for proposed activity.
Facilities and land maintained	Grass quality	Full cover length >20, <100mm	Implement mowing program. Undertake turf maintenance as required
	Garden beds	Weed free Rubbish free Mulched Healthy viable plants	Minimum monthly bed clean up. Apply 100mm cover mulch. Replace dead/diseased plants. Undertake horticultural maintenance as required.
	Litter	Grounds litter free No overflowing bins	Regular check of bins/grounds Bins emptied Mondays where possible and as required
	Footpaths/Steps	Clear of obstructions Weed free Safe No damage	Remove any weeds in pavements Barricade any dangerous/broken sections & arrange repairs at earliest opportunity
	Carparks	Clear of Obstructions Relatively free of soil and sediment Safe No damage To Engineers standard	Remove any sediment, leaf litter, weeds and obstructions from the carpark area.
	Irrigation (where installed)	Operational	Check of whole system, minimum twice a year Weekly assessment of watering Arrange plumbers, as required
Furniture Maintained	Lights function Poles undamaged (where installed)	All lights operational No chipped paint, bent poles or broken luminaries	Monthly check Repaint damage annually Replace broken or repair fixtures & fittings within two weeks of being notified
	Seats useable (where installed)	No broken slats All seats fixed to ground, no missing bolts Clean	Monthly check or as reported Replace broken or repaint item as required Clean as required
Reduced fire risk	No loss of life or property	10m-fuel reduction zone immediately adjacent to adjoining properties.	Undertake as part of maintenance program. Engage local community for assistance.
		No greater than 10-15 tonnes/ha of fuel on the ground	Undertake fuel reduction practices when standard exceeded. Advise local residents of the problem & remove waste. Engage local community groups of assistance. Install fencing to perimeter of park. Undertake as part of regular maintenance & advise local residents of the problem.
		No dumped garden waste	
		No obstructions to fire breaks

S. I. S. G. - J.W.F.

Scale: 1:1500

Legend:

- General Community Use
- Natural Areas - Bushland
- Natural Areas - Escarpment
- Natural Areas - Foreshore
- Natural Areas - Watercourse
- Park Boundary
- Parks
- Sportsgrounds

A detailed map showing a coastline with various features. A compass rose indicates cardinal directions (N, S, E, W) and intermediate points. A scale bar at the bottom right shows distances from 0 to 100 meters. Elevation contours are marked every 5 meters, ranging from 0 to 55 meters. The map includes labels for 'S 1:50,569' and 'Metres'.

### **Community Land Classification Legend**

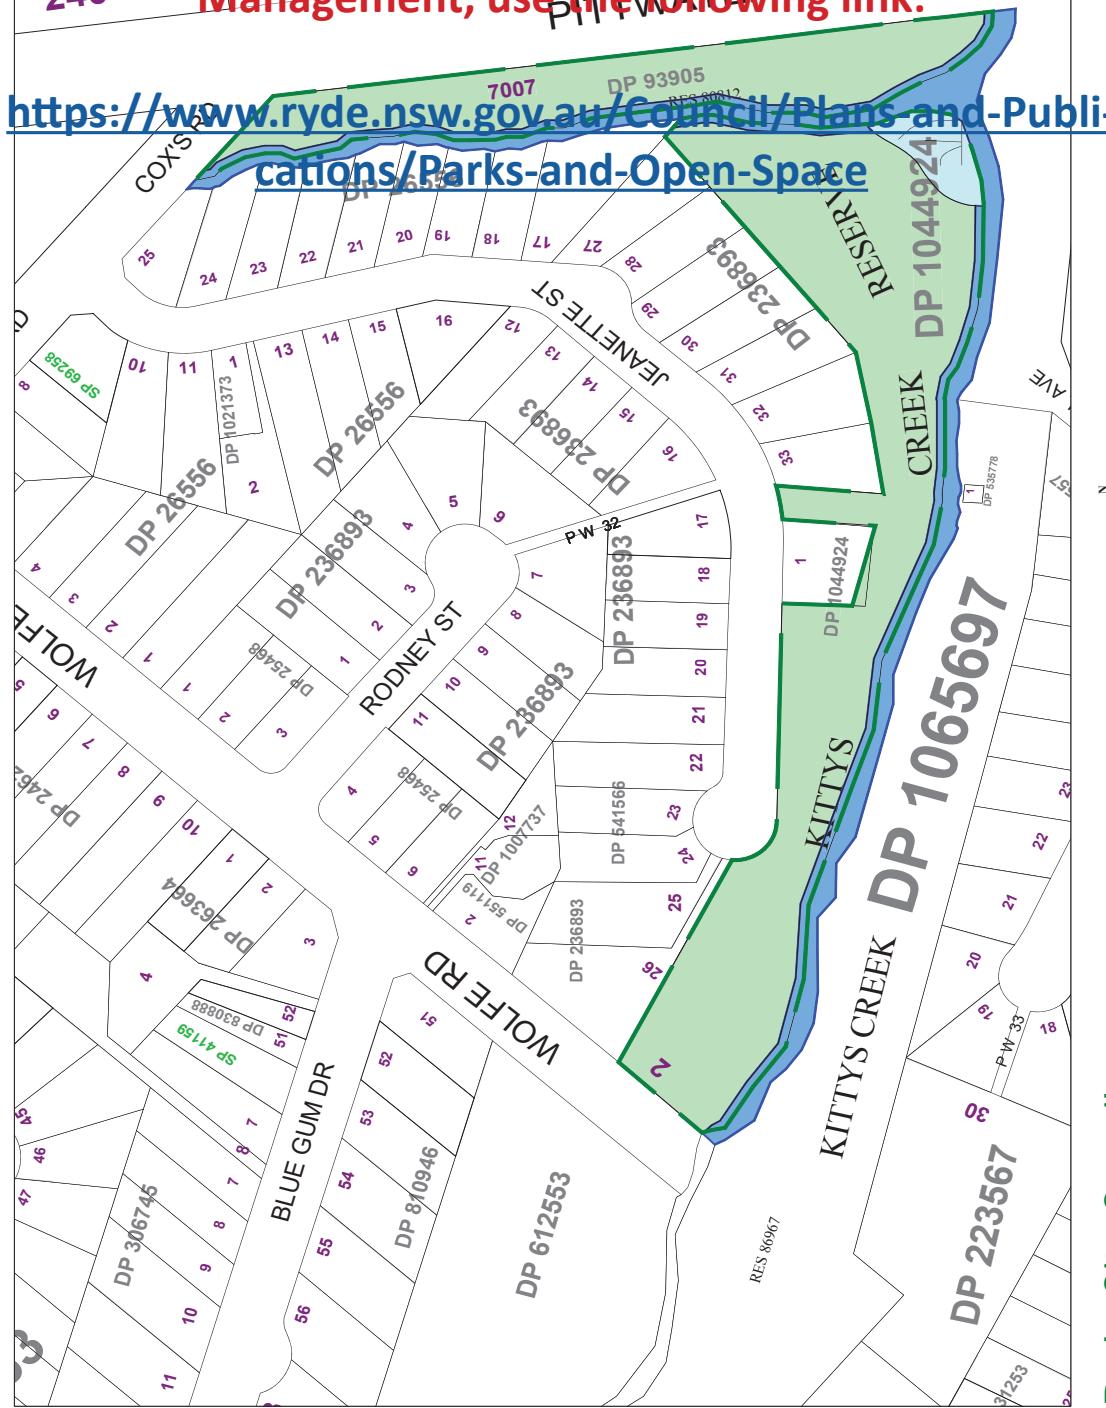

The legend consists of two columns of colored squares with corresponding labels. The first column contains five entries: 'General Community Use' (yellow), 'Natural Areas - Bushland' (light green), 'Natural Areas - Escarpment' (brownish-red), 'Natural Areas - Foreshore' (purple), and 'Natural Areas - Watercourse' (blue). The second column contains three entries: 'Natural Areas - Wetlands' (light blue square next to a blue rectangle), 'Park Boundary' (green outline around a white rectangle), and 'Parks' and 'Sportsgrounds' (both represented by a yellow rectangle).

General Community Use	Natural Areas - Wetlands
Natural Areas - Bushland	Park Boundary
Natural Areas - Escarpment	Parks
Natural Areas - Foreshore	Sportsgrounds
Natural Areas - Watercourse

# PELLISIER ROAD (55)

Ryde City Council

The map displays the Shire of Warrnambool's boundaries and internal roads. Overlaid are several colored areas representing different land use categories:

- Park Boundary**: Indicated by a green dashed line.
- Parks**: Shaded in light green.
- Sportsgrounds**: Shaded in yellow-green.
- Natural Areas - Bushland**: Shaded in light blue.
- Natural Areas - Escarpment**: Shaded in light red.
- Natural Areas - Foreshore**: Shaded in light purple.
- Natural Areas - Watercourse**: Shaded in light blue.

A legend on the left side of the map provides a key for these categories. A north arrow is also present.

### **Community Land Classification Legend**

The legend consists of six entries, each with a colored square and a label:

- General Community Use (Yellow)
- Natural Areas - Bushland (Light Green)
- Natural Areas - Escarpment (Red)
- Natural Areas - Foreshore (Purple)
- Natural Areas - Watercourse (Blue)
- Natural Areas - Wetlands (Yellow-green box with a blue border)

Below the first five entries is a green-outlined box labeled "Park Boundary". To the right of the last two entries are two more boxes: a yellow box labeled "Parks" and a yellow-green box labeled "Sportsgrounds".

#### Community I and Classification Legend

The legend consists of two columns of colored squares with corresponding labels. The first column contains five entries: 'General Community Use' (yellow), 'Natural Areas - Bushland' (light green), 'Natural Areas - Escarpment' (dark red), 'Natural Areas - Foreshore' (purple), and 'Natural Areas - Watercourse' (blue). The second column contains three entries: 'Natural Areas - Wetlands' (light blue square with a dark blue outline), 'Park Boundary' (green line with a green square), and 'Parks' (light green square with a dark green outline). A thick black border surrounds the entire legend area.

# Appendix B

## Appendix B

The following section is an extract from the Local Government (General) Amendment 1998 and explains the lease, license and other estates policy.

### **46 Leases, licences and other estates in respect of community land generally**

1. A lease, licence or other estate in respect of community land:
  - a. may be granted for the provision of public utilities and works associated with or ancillary to public utilities, or
  - b. may be granted, in accordance with an express authorisation in the plan of management and such provisions of the plan of management as apply to the granting of the lease, licence or other estate:
    - i. for a purpose prescribed by subsection (4), or for a purpose prescribed by any of sections 36E to 36N as a core objective of the categorisation of the land concerned, or
    - ii. for a purpose prescribed by the regulations, if the plan of management applies to several areas of community land, or
    - iii. for a short-term, casual purpose prescribed by the regulations, or
    - iv. for a residential purpose in relation to housing owned by the council, or
    - v. for the purpose of providing pipes, conduits or other connections under the surface of the ground for the connection of premises adjoining the community land to a facility of the council or other public utility provider that is situated on the community land, but may not otherwise be granted.
2. Despite subsection (1), a lease, licence or other estate in respect of community land may be granted for a purpose mentioned in subsection (1) (b) only if the purpose for which it is granted is consistent with the core objectives, as prescribed in this Part, of its categorisation.
3. A council must not grant a lease or licence for a period (including any period for which the lease or licence could be renewed by the exercise of an option) exceeding 21 years.
4. The following purposes are prescribed for the purposes of subsection (1) (b) (i):
  - a. the provision of goods, services and facilities, and the carrying out of activities, appropriate to the current and future needs within the local community and of the wider public in relation to any of the following:
    - i. public recreation,
    - ii. the physical, cultural, social and intellectual welfare or development of persons,
  - b. (b) the provision of public roads.
5. Purposes prescribed by subsection (4) in relation to the matters mentioned in subsection (4) (a) (ii) include, but are not limited to, maternity welfare centres, infant welfare centres, kindergartens, nurseries, child care centres, family day- care centres, surf life saving clubs, restaurants or refreshment kiosks.
6. A plan of management is void to the extent that it purports to authorise the grant of a lease, licence or

other estate in contravention of this section.

#### **46A Means of granting leases, licences and other estates**

1. A plan of management is to specify, in relation to the community land to which it applies, any purposes for which a lease, licence or other estate may be granted only by tender in accordance with Division 1 of Part 3.
2. Nothing in this section precludes a council from applying a tender process in respect of the grant of any particular lease, licence or estate.
3. A lease or licence for a term exceeding 5 years may be granted only by tender in accordance with Division 1 of Part 3, unless it is granted to a non-profit organisation.

#### **47 Leases, licences and other estates in respect of community land terms greater than 5 years**

1. If a council proposes to grant a lease, licence or other estate in respect of community land for a period (including any period for which the lease, licence or other estate could be renewed by the exercise of an option) exceeding 5 years, it must:
  - a. give public notice of the proposal, and
  - b. exhibit notice of the proposal on the land to which the proposal relates, and
  - c. give notice of the proposal to such persons as appear to it to own or occupy the land adjoining the community land, and
  - d. give notice of the proposal to any other person, appearing to the council to be the owner or occupier of land in the vicinity of the community land, if in the opinion of the council the land the subject of the proposal is likely to form the primary focus of the person's enjoyment of community land.
2. A notice of the proposal must include:
  - information sufficient to identify the community land concerned
  - the purpose for which the land will be used under the proposed lease, licence or other estate
  - the term of the proposed lease, licence or other estate (including particulars of any options for renewal)
  - the name of the person to whom it is proposed to grant the lease, licence or other estate (if known)
  - a statement that submissions in writing may be made to the council concerning the proposal within a period, not less than 28 days, specified in the notice.
3. Any person may make a submission in writing to the council during the period specified for the purpose in the notice.
4. Before granting the lease, licence or other estate, the council must consider all submissions duly made to it.
5. If a person makes a submission by way of objection to the proposal, the council must not grant the lease, licence or other estate except with the Minister's consent.
6. If the council applies for the Minister's consent, it must forward with its

application:

- a copy of the plan of management for the land
  - details of all objections received and a statement setting out, for each objection, the council's decision and the reasons for its decision
  - a statement setting out all the facts concerning the proposal to grant the lease, licence or other estate
  - a copy of the newspaper notice of the proposal
  - a statement setting out the terms, conditions, restrictions and covenants proposed to be included in the lease, licence or other estate
  - a statement setting out the manner in which and the extent to which the public interest would, in the council's opinion, be affected by the granting of the proposed lease, licence or other estate, including the manner in which and the extent to which the needs of the area with respect to community land would, in the council's opinion, be adversely affected by the granting of the proposed lease, licence or other estate.
7. On receipt of the application, the Minister must request the Director of Planning to furnish a report concerning the application within such period as the Minister specifies.
  8. After considering the application and any report of the Director of Planning, the Minister, if satisfied that:
    - a. subsections (1), (2) and (6) have been complied with, and
    - b. (b) such consent would not contravene section 46, and
    - c. (c) in all the circumstances, it is desirable to grant consent, may consent to the granting of a lease, licence or other estate in respect of the whole or part of the land to which the application relates, subject to such terms and conditions as the Minister specifies.
  - 8A. On request by any person, the Minister must provide that person, within 14 days of that request, with a written statement of reasons for consenting to, or refusing to consent to, the granting of a lease, licence or other estate in accordance with subsection (8).
  9. The Minister's consent is conclusive evidence that the council has complied with subsections (1), (2) and (6).
  10. For the purposes of this section, any provision made by a lease or licence, or by an instrument granting any other estate, in respect of community land, according to which the council:
    - a. would suffer a disadvantage or penalty if the same or a similar lease, licence or estate were not to be granted, for a further term, after the expiry of the current lease, licence or other estate, or
    - b. would enjoy an advantage or benefit if the same or a similar lease, licence or estate were to be so granted, is taken to confer an option for renewal for a term equal to the further term.

#### **47A Leases, licences and other estates in respect of community land terms of 5 years or less**

1. This section applies to a lease, licence or other estate in respect of community land granted for a period that (including any period for which the lease, licence or other estate could be renewed by the exercise of an option) does not exceed 5 years, other than a lease, licence or other estate exempted by the regulations.

2. If a council proposes to grant a lease, licence or other estate to which this section applies:
  - a. the proposal must be notified and exhibited in the manner prescribed by section 47, and
  - a. the provisions of section 47 (3) and (4) apply to the proposal, and (c) on receipt by the council of a written request from the Minister, the proposal is to be referred to the Minister, who is to determine whether or not the provisions of section 47 (5) (9) are to apply to the proposal.
3. If the Minister, under subsection (2) (c), determines that the provisions of section 47 (5) (9) are to apply to the proposal:
  - a. the council, the Minister and the Director of Planning are to deal with the proposal in accordance with the provisions of section 47 (1) (8), and
  - a. section 47 (9) has effect with respect to the Minister's consent.

#### **47C Sublease of community land**

1. In addition to any restrictions created by the lease, community land that is the subject of a lease cannot be sublet for a purpose other than:
  - a. the purpose for which, as notified under section 47 (2), the land was to be used under the lease, or
  - b. A purpose prescribed by the regulations.
2. A lease is void to the extent that its provisions are inconsistent with this section.

#### **47D Occupation of community land otherwise than by lease or licence**

1. The exclusive occupation or exclusive use by any person of community land otherwise than in accordance with:
  - a. a lease, licence or estate to which section 47 or 47A applies, or
  - b. a sublease or other title directly or indirectly derived from the holder of such a lease, licence or estate, is prohibited.
2. This section does not apply to:
  - a. the occupation or use of part of the site of a senior citizens' centre or home or community care facility by a duly appointed manager of the centre, or
  - b. the occupation or use of community land by persons, and in circumstances, prescribed by the regulations.

#### **47E Development of community land**

1. No power of a council under an environmental planning instrument to consent to the carrying out of development on community land may be delegated by the council, if:
  - a. the development involves the erection, rebuilding or replacement of a building (other than a building exempted by or under subsection (2) from the operation of this paragraph), or
  - b. The development involves extensions to an existing building that would occupy more than 10 per

- cent of its existing area, or
- c. The development involves intensification, by more than 10 per cent, of the use of the land or any building on the land, or
  - d. the location of the development has not been specified in the plan of management applying to the land and the development is likely, in the opinion of the council, to be unduly intrusive to nearby residents.
2. The following buildings are exempt from the operation of subsection (1) (a):
- a. toilet facilities,
  - b. Small refreshment kiosks,
  - c. Shelters for persons from the sun and weather,
  - d. Picnic facilities,
  - e. Structures (other than accommodations for spectators) required for the playing of games or sports,
  - f. Playground structures,
  - g. Work sheds or storage sheds,
  - h. Buildings of a kind prescribed by the regulations.
3. An existing area referred to in subsection (1) (b) does not include the area of any awning, balcony, verandah or other thing that extends beyond the main structural outline of the building.
4. A delegation granted before the commencement of this section, to the extent that the delegation could not have been granted if this section had been in force at the time it was granted, is void.

The following section is an extract from the Local Government (General) Amendment (Community Land Management) Regulation 1999 that has been amended in 1998 and explains the lease, license and other estates policy.

#### **6JF Leases, licenses and other estates in respect of community land**

- 1. For the purposes of section 46 (1) (b) (iii) of the Act, the use or occupation of community land for the following events is prescribed as a purpose in respect of which a council may grant a license in respect of community land on a short-term casual basis:
  - a. the playing of a musical instrument, or singing, for fee or reward,
  - b. Engaging in a trade or business,
  - c. Delivering a public address,
  - d. Commercial photographic sessions,
  - e. Picnics and private celebrations such as weddings and family gatherings,
  - f. Filming for cinema or television,
  - g. the agistment of stock.
- 2. However, the use or occupation of community land for events listed in subclause (1) is prescribed only if the use or occupation does not involve the erection of any building or structure of a permanent

nature.

**6JG Exemptions from section 47A (Leases, licenses and other estates in respect of community land - terms of 5 years or less)**

1. Leases, licenses and other estates granted for the following purposes are exempt from the provisions of section 47A of the Act:
  - a. residential purposes, where the relevant community land has been developed for the purposes of housing owned by the council,
  - b. the provision of pipes, conduits or other connections under the surface of the ground for the connection of premises adjoining the community land to a facility of the council or other public utility provider that is situated on the community land, use and occupation of the community land for events such as:
    - i. a public performance (that is, a theatrical, musical or other entertainment for the amusement of the public),
    - ii. the playing of a musical instrument, or singing, for fee or reward,
    - iii. engaging in a trade or business,
    - iv. playing of any lawful game or sport,
    - v. delivering a public address,
    - vi. conducting a commercial photographic session,
    - vii. picnics and private celebrations such as weddings and
    - viii. family gatherings,
    - ix. filming for cinema or television.
3. However, the use or occupation of community land for events listed in subclause (1) (c) is exempt only if:
  - a. the use or occupation does not involve the erection of any building or structure of a permanent nature, and
  - b. In the case of any use or occupation that occurs only once, it does not continue for more than 3 consecutive days, and
  - c. In the case of any use or occupation that occurs more than once, each occurrence is for no more than 3 consecutive days, not including Saturday and Sunday, and the period from the first occurrence until the last occurrence is not more than 12 months.

**6JH Sublease of community land**

For the purposes of section 47C (1) (b) of the Act:

- a. refreshment kiosks, dances and private parties are prescribed as purposes for which community land that is leased for surf life-saving club or a sporting club may be sublet, and
- a. a croquet club is prescribed as a purpose for which community land that is used as a bowling club may be sublet.
