

Severe Storm

It is important to be prepared for severe storms.

Severe storm can bring heavy rain, hail, strong wind, lightning and thunder.

If outside in a storm, find safe shelter away from trees, power lines and metal structures.

During a storm stay inside and away from windows. Listen to your radio for updates.

Don't forget your pets during severe storms.

After a storm, check your home for damage and check on your neighbours.
Call the State Emergency Service (SES) if you need help with storm damage.
