## Did you know?

Children between the ages of 5 and 12 years old need at least 60 minutes (and up to several hours) of moderate to vigorous physical activity every day. Adults need to put together at least 30 minutes of moderate-intensity physical activity on most, preferably all, days.

Walking to school is an easy way for you and your child to achieve the recommended amount of physical activity needed in a day. **It's fun, friendly and easy.**

## Stop Look Listen Think How to cross the road safely

**STOP** one step back from the kerb or shoulder of the road if there is no footpath. **LOOK** in all directions for approaching traffic. **LISTEN** in all directions for approaching traffic. **THINK** about whether it is safe to cross the road – when the road is clear or all traffic has stopped.

When crossing walk straight across the road. Keep **LOOKING** and **LISTENING** for traffic while crossing.
