3 REDUCING ORGANIC AND NON-ORGANIC MATTER IN OUR WATERWAYS - Councillor Penny Pedersen

File Number: CLM/22/1/1/6 - BP22/139

MOTION:

- (a) That Council note, close to 4,000 fish died recently in one of several fish kills in the Parramatta River at Rydalmere and Haslams Creek. The Environmental Protection Agency (EPA) and the Department of Primary Industry (DPI) have confirmed that this event was due to deoxygenation of the water, caused by excessive organic matter being washed into the river from drains after heavy rain.
- (b) That the General Manager bring back a report to Council or the Works and Community Committee outlining:-
 - (i) the current management of organic matter in City of Ryde (COR) drains, gross pollutant traps (GPT's) and street gutters, including the locations and frequency of COR street-cleaning.
 - (ii) opportunities and costs to increase the number, type and efficiency of our GPT's – outlining the resources required to increase cleaning of traps, particularly before major weather events.
- (c) That Council identify appropriate funding from the EPA or other sources to begin:-
 - (i) painting a stencil or mural or attaching a sign on highly visible COR drains to remind residents that all of our drains lead to our river.
 - (ii) an education campaign through the COR rates notice and website, educating residents on the impact of organic and non-organic matter washing from drains into our waterways.
