
MM4/18 LACHLANS LINE OVERBRIDGE - IMPACT ON BUNDARA RESERVE - Mayor, Councillor Jerome Laxale

File Number: MIN2011/2/2 - BP18/321

The NSW State Government has sought to modify the pedestrian footbridge over Delhi Road. Previous approvals have had no impact on Bundara Reserve and minimal impact on adjoining E2 zoned land.

The modification lodged, if approved, would significantly threaten E2 zoned land at Bundara Reserve. The documents accompanying the modification proposal do not provide any adequate reason as to why the modification is required, nor why Bundara Reserve needs to be compromised by the construction of the footbridge.

Of further concern is the fact that this modification was lodged so close to Easter, with the consultation period compromised.

RECOMMENDATION:

- (a) That Council prepare a submission to oppose the modification of the pedestrian footbridge noting that there should be no impact on the Bundara Reserve or adjoining E2 zoned.
- (b) That Council, on behalf of local residents, write to the Minister for Planning requesting an extension of the public consultation period.
- (c) That Council, through usual media channels, highlight this issue.
