# Travel Choices

Imagine how many books you could read on the bus!

If you drive regularly in the peak, you are spending up to 6 extra days sitting in a car.  
Don't lose 3 weekends!

Travel behaviour change  
can help drive productivity at work

Encouraging staff to adapt their travel by using the Four Rs (Reduce, Remode, Reroute and Retime) can lead to real benefits for your organisation including improved efficiency, cost reduction, employee health and sustainability.

Why not walk it?

Walking for shorter journeys can be a great way to incorporate exercise into your work day.  
For example, you can walk half of George Street in less than 30 minutes.  
That's your daily exercise needs!

# Travel Choices

Is driving still your best option?

Most of George Street will be closed to general traffic by the end of this year for major light rail construction. Travelling by car will take longer, especially during AM and PM peaks.

Use public transport, or if you need to drive avoid travelling during peak times.

**Ask a Travel Choices team member along to their staff forum to do a quick update on the changes in the CBD and how they can respond**

**Incorporate travel choices into sustainability or staff wellness programs**

**Offer pedometers to staff to encourage walking and promote healthy living**

**Identify key staff in the organisation and ensure they have tried an alternative travel option so they can always get to work on time**

**Consolidate deliveries, use of walking/ cycling couriers**

## **What does good look like in practice?**

**Arrange meetings outside of peak between 10am - 4pm – office meeting**

**Add Travel Choices information and advice to booking confirmations e.g. event tickets and appointments**

**Provide opal cards to staff**

**Review staff car park incentives and benefits, and offer to replace with alternatives of equal value**
