

WHY OFF-LEASH AT HIGH TIDE ONLY?

Preventing your dog from utilising the off-leash area at low tide will help to protect our shorebirds, as well as the sandflats, mudflats and rock platforms they feed on at low tide here at Kissing Point Bay.

Dogs may chase shorebirds, causing them to fly and not feed or rest. This can be stressful for birds such as Godwits and Curlews that have flown vast distances to reach Australia.

The Bar-tailed Godwit and Australian Pied Oystercatcher are just a couple of birds you'll see here. They are threatened with extinction.

Responsible dog owners can help these special birds survive.

Bar-tailed Godwit

Australian Pied Oystercatcher

The off-leash area is operational 1 hour either side of high tide only.

KISSING POINT HIGH TIDES
