Delivering for our community

## Maintenance Works (Re-Cladding) Ryde Aquatic Leisure Centre

### Dear residents and visitors,

The City of Ryde aims to provide continuous improvements to public amenities and facilities to enhance safety and durability.

As a part of this commitment, Council is undertaking maintenance works to replace the existing cladding panels along the perimeter walls of the Ryde Aquatic Leisure Centre.

### What will the works include?

The works will include removal of the existing cladding panels and replacement with new aluminium cladding panels (Vitadual).

These works will be undertaken in a staged manner, working on one area of the facility at a time. The areas of re-cladding works can be found on the back of this flyer.

### Timing Of Works

#### Works commencing:

Tuesday 19 April 2022.

#### Expected completion:

Late July 2022, weather permitting.

The works will be carried out between out Monday to Friday between the hours of 7.00am and 5.00pm, with some Saturdays between the hours of 8.00am and 1.00pm.

### Changed Conditions

The facility will be operational during the works, however, there will be some minor changes to building access. When this occurs, alternative access points and pathways will be provided to ensure safe pedestrian movement.

Thank you for your patience during this time.
