

Another City of Ryde infrastructure project

For a connected and accessible city

Victoria Road Footpath Renewal

(Darvall Road – Marsden Road)

Dear resident / business owner

We would like to inform you of the upcoming construction works to be undertaken on Victoria Road, West Ryde, between Darvall Road and Marsden Road.

Damaged sections of the existing footpaths will be reconstructed as part of the City Of Ryde's commitment to create safe and accessible paths for the community (see overleaf for plan of works)

There will be some noise, vibration and disruption associated with this work.

Machinery and equipment used may include lighting towers, excavator, trucks, light vehicles, concrete saws and hand tools.

Timing Of Works

Start of construction

Construction is expected to commence the week of **9th of September 2019**.

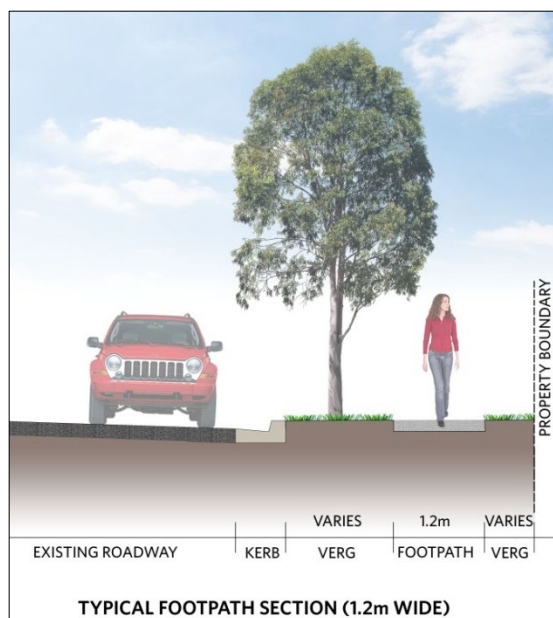

Completion of construction

Construction is expected to be completed within 2 weeks of works commencing, weather permitting.

Changed Conditions

The majority of works will be completed at night between 9:00pm to 5:00am. This minimises impacts on motorists and provides a safe work area for the construction crew. We will make every effort to minimise noise at night by completing noisier activities earlier in the night.

Council thanks you for your patience during these essential works.
