

Another City of Ryde project

Delivering for our community

Kerb and Gutter and Stormwater Drainage Upgrade Monash Road, Gladesville

Dear resident or business operator

The City of Ryde is committed to the delivery and maintenance of high quality infrastructure and facilities. As part of this commitment, there will be kerb and gutter as well as stormwater drainage works in Monash Road, Gladesville.

The work is part of Council's four year delivery plan for new infrastructure and includes:

- Kerb level adjustments.
- Driveway improvements, including replacement of existing gutter bridges with standard driveway laybacks.
- Installation of new drainage pits and pipes.
- Road resurfacing.

The works will take place along Monash Road between Buffalo Road and Higginbotham Road/Thompson Street (see map on reverse side).

Example stormwater drainage works in progress

Changed traffic conditions

Construction activities will occupy some parking spaces and require short term restrictions on driveway access.

There will be changed traffic flows at the roundabout with Higginbotham Road and Thompson Street and short delays to through traffic at various times.

Access will be maintained wherever possible and residents will be advised of alternate access or parking arrangements in advance.

Timing of works

Construction is due to start in early **May 2020**, and be completed by **December 2020**, weather permitting.

Construction hours are typically Monday to Friday between 7:00am and 4:00pm, and some Saturdays.

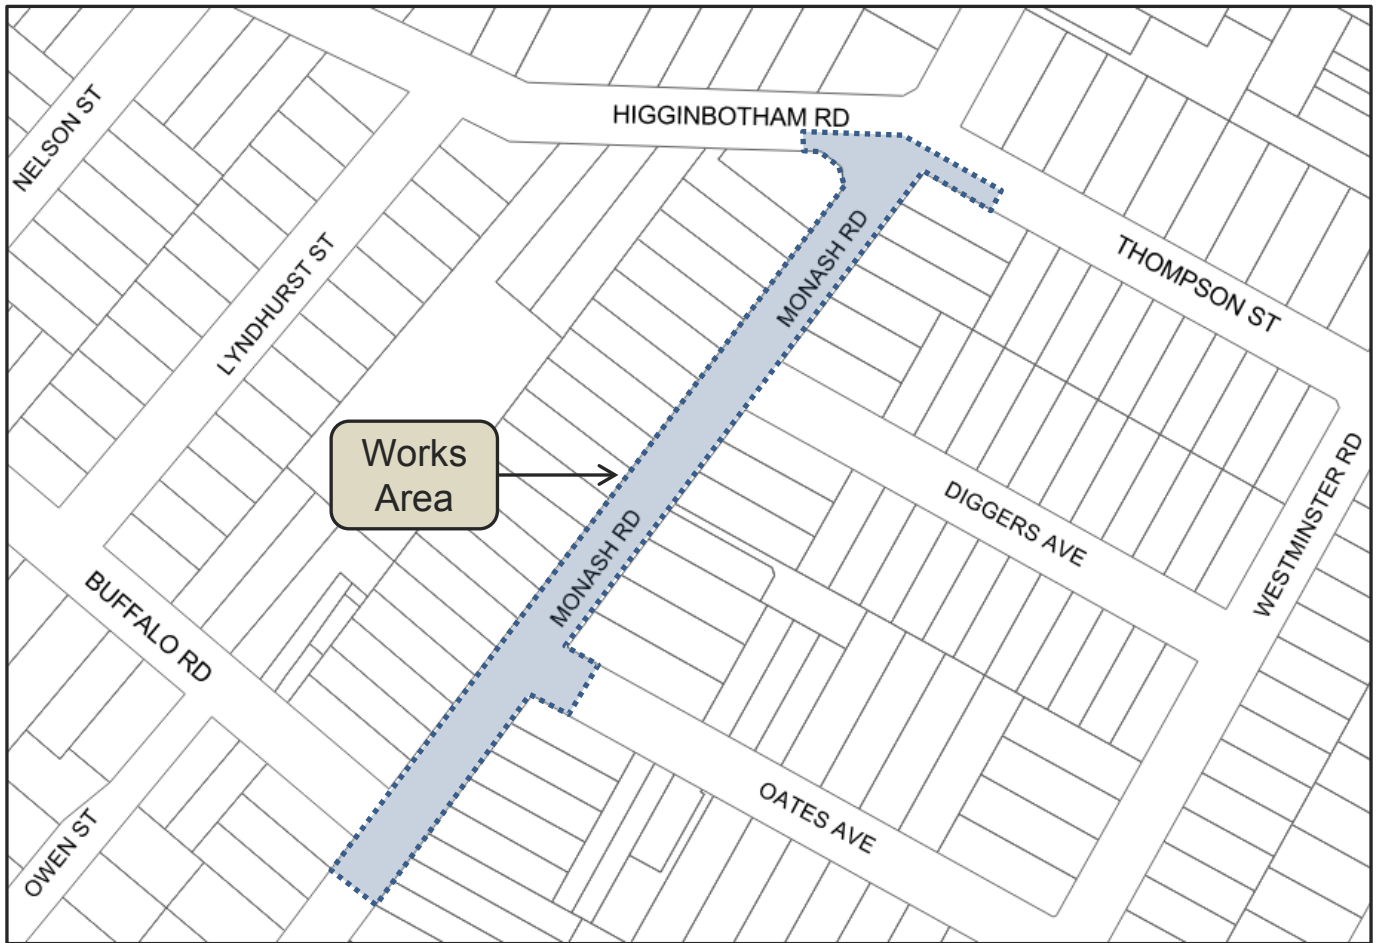

Council thanks you for your patience.
