## ***Fees and Charges for Goods and Services***

In accordance with Section 608 of the Local Government Act, 1993 and other relevant legislation, Council levies a range of fees and charges as contained within this document.

The general intention of the fees and charges is to cover the following contingencies:

- Supply of a product, service, or commodity.
- Giving of information
- Providing a service in connection with the Council's regulatory functions, including receiving an application for approval, granting an approval, making an inspection and issuing a certificate.
- Allowing admission to any building or enclosure.

Council has given due consideration to the following factors in determining the appropriate price for each fee

- the cost of providing the service
- whether the goods or service are supplied under a commercial basis
- the capacity of the user to pay
- the impact of the activity on public amenity
- competitive market prices
- prices prescribed by legislation.

**Council reviews all Fees and Charges on an annual basis in line with the corresponding Operating Budget.**

**Any changes to Fees and Charges as a result of a GST ruling or legislative change will be amended as an administrative adjustment. All other changes will be reported in accordance with Local Government Act and Regulations.**

All fees are quoted in "GST Inclusive" terms, as this is the relevant price to the customer, however it should be recognised that within the schedule there are fees that do not attract GST.

These fees have either been specifically exempted by the GST legislation or have been included within the Division 81 determination as the Australian government has deemed that the customer does not actually receive a taxable supply in consideration for the fee.

## ***Fees Categories***

Each fee that Council sets is categorised as A, B, C, D, E, F, G, H or I. These categories denote the primary principle used in setting the fee:

<b>Fee Category</b>	<b>Name</b>	<b>Definition</b>
A	Statutory Fee (Set)	The fee or charge is prescribed in a regulation or set by Legislation at a specific rate or amount.
B	Statutory Fee (Prescribed Range)	The rate or amount of the fee or charge is prescribed within a range, set by legislation, up to a maximum amount. Council determines the Fee or Charge within this range.
C	Fully Subsidised	There is no fee or charge for this service but an application process may apply in accessing this service.  Reasoning for no price may include: <ul style="list-style-type: none"> <li>• Practical restraints limit the ability to be able to charge for services for a nominated class of user.</li> <li>• The cost of collecting revenue outweighs by the benefit of levying a charge.</li> <li>• The desire of Council to encourage usage of the nominated service.</li> </ul>
D	Partially Subsidised	The fee or charge associated with providing this good or service is set to derive a partial contribution to the cost of providing the service.
E	User Pays - Direct Costs	The fees and charges set for this type of good or service is set to recover the operating and maintenance costs associated with providing the service.
F	User Pays – Direct Costs (+ % mark-up)	The fees and charges set for this type of good or service is set to recover the operating and maintenance costs associated with providing the service plus a percentage mark up (to partially overheads and administration costs)
G	User Pays– Full Cost Recovery	The fee or charge for this good or service is set to recover the full costs of providing the service (including overheads).
H	User Pays– Market Prices	The fee or charge for this type of good or service is set to generate an appropriate rate of return on the capital invested in maintaining the asset in association with market pricing.

I	Refundable Deposit	<p>The price charged is a fee that is refundable to the payee after a prescribed condition is met.</p> <p>The initial deposit payment does not attract GST. Any full or partial forfeiture of the deposit may attract GST.</p> <p>Council must cover administration and other costs incurred in the investment of these monies.</p> <p>The interest earned on all deposits is at the on-call rate received by Council. Interest earned on security deposits will be used to offset the administration of security deposits.</p> <p>Where interest earned on a deposit is not sufficient to meet the fee, the amount of the bond (less any forfeiture) will be repaid.</p>
---	--------------------	---

### ***Reduction or waiving of fees via Council Resolution***

Section 610E of the Local Government Act 1993 allows Council to waive payment of, or reduce a fee in a particular case if it is satisfied that the case falls within a category of hardship or any other category that Council has determined it may consider waiving payment, or reducing a fee.

## Lifetime Registration Fees - per Animal

Animals must be micro chipped before they can be registered.

Assistance animals, accredited by an animal training organisation prescribed by the Commonwealth (as defined in Commonwealth Law), must be microchipped and lifetime-registered but there is no registration fee payable.

Working dogs used for tending stock on a rural property or a greyhound currently registered under the Greyhound Racing Act 2009, you do not need to have it microchipped or registered with your local council. However, it is recommended that you have dog microchipped for its protection.

# Fees and Charges

For the period 1 January 2021 to 30 June 2021

## ***Fees and Charges for Goods and Services***

In accordance with Section 608 of the Local Government Act, 1993 and other relevant legislation, Council levies a range of fees and charges as contained within this document.

The general intention of the fees and charges is to cover the following contingencies:

- Supply of a product, service, or commodity.
- Giving of information
- Providing a service in connection with the Council's regulatory functions, including receiving an application for approval, granting an approval, making an inspection and issuing a certificate.
- Allowing admission to any building or enclosure.

Council has given due consideration to the following factors in determining the appropriate price for each fee

- the cost of providing the service
- whether the goods or service are supplied under a commercial basis
- the capacity of the user to pay
- the impact of the activity on public amenity
- competitive market prices
- prices prescribed by legislation.

**Council reviews all Fees and Charges on an annual basis in line with the corresponding Operating Budget.**

**Any changes to Fees and Charges as a result of a GST ruling or legislative change will be amended as an administrative adjustment. All other changes will be reported in accordance with Local Government Act and Regulations.**

All fees are quoted in "GST Inclusive" terms, as this is the relevant price to the customer, however it should be recognised that within the schedule there are fees that do not attract GST.

These fees have either been specifically exempted by the GST legislation or have been included within the Division 81 determination as the Australian government has deemed that the customer does not actually receive a taxable supply in consideration for the fee.

## ***Fees Categories***

Each fee that Council sets is categorised as A, B, C, D, E, F, G, H or I. These categories denote the primary principle used in setting the fee:

<b>Fee Category</b>	<b>Name</b>	<b>Definition</b>
A	Statutory Fee (Set)	The fee or charge is prescribed in a regulation or set by Legislation at a specific rate or amount.
B	Statutory Fee (Prescribed Range)	The rate or amount of the fee or charge is prescribed within a range, set by legislation, up to a maximum amount. Council determines the Fee or Charge within this range.
C	Fully Subsidised	There is no fee or charge for this service but an application process may apply in accessing this service.  Reasoning for no price may include: <ul style="list-style-type: none"> <li>• Practical restraints limit the ability to be able to charge for services for a nominated class of user.</li> <li>• The cost of collecting revenue outweighs by the benefit of levying a charge.</li> <li>• The desire of Council to encourage usage of the nominated service.</li> </ul>
D	Partially Subsidised	The fee or charge associated with providing this good or service is set to derive a partial contribution to the cost of providing the service.
E	User Pays - Direct Costs	The fees and charges set for this type of good or service is set to recover the operating and maintenance costs associated with providing the service.
F	User Pays – Direct Costs (+ % mark-up)	The fees and charges set for this type of good or service is set to recover the operating and maintenance costs associated with providing the service plus a percentage mark up (to partially overheads and administration costs)
G	User Pays– Full Cost Recovery	The fee or charge for this good or service is set to recover the full costs of providing the service (including overheads).
H	User Pays– Market Prices	The fee or charge for this type of good or service is set to generate an appropriate rate of return on the capital invested in maintaining the asset in association with market pricing.

I	Refundable Deposit	<p>The price charged is a fee that is refundable to the payee after a prescribed condition is met.</p> <p>The initial deposit payment does not attract GST. Any full or partial forfeiture of the deposit may attract GST.</p> <p>Council must cover administration and other costs incurred in the investment of these monies.</p> <p>The interest earned on all deposits is at the on-call rate received by Council. Interest earned on security deposits will be used to offset the administration of security deposits.</p> <p>Where interest earned on a deposit is not sufficient to meet the fee, the amount of the bond (less any forfeiture) will be repaid.</p>
---	--------------------	---

### ***Reduction or waiving of fees via Council Resolution***

Section 610E of the Local Government Act 1993 allows Council to waive payment of, or reduce a fee in a particular case if it is satisfied that the case falls within a category of hardship or any other category that Council has determined it may consider waiving payment, or reducing a fee.
